ACCESSIBILITY POLICY/PLAN

The school recognises the duties placed upon it by the Equalities Act 2010 and the SEN and Disability Act 2001 in relation to disabled pupils and prospective pupils. It actively seeks not to treat disabled pupils less favourably and takes reasonable steps to avoid putting them at a substantial disadvantage.

Alterations to the building in were designed to provide access to all pupils and visitors to the school.

CURRENT PROVISION

Building Access

Wider doors, allowing wheelchair access, are located at ramped areas – into Foundation building, Nursery class and Junior building.

Toilet facilities for the disabled are located in both the Foundation and Junior buildings.

Curricular Provision

The school endeavours to ensure that all pupils, including those with disabilities, have access to the full range of curricular activities. In addition to the building adaptation described above:

The school employs, when required, additional Teaching Assistants (T.As) for children with disabilities.

There are a number of permanently employed Teaching Assistants who provide support for children with a variety of needs; including speech and language and specific learning difficulties.

A range of specialist equipment is provided on the advice of external agencies to help disabled pupils to participate in lesson activities.

Venues for educational visits are carefully chosen to ensure that there is access for disabled pupils, with T.As assigned to accompany them.

Risk assessments are carried out for each disabled child on their entry to school. These ensure that the child has full access to classroom activities and lessons.

General Provision

The school endeavours to ensure that all pupils, including those with disabilities, are able to take part in all school activities. In addition to those described above, children with disabilities are always included in activities such as school assembly when wheelchair space, specially adapted chairs, individual support, etc, is provided.

Teachers organise their classrooms to ensure that they are accessible to all. In this way pathways around classroom furniture enable wheelchair access and class floor areas are large enough for children to work on if in plaster casts. Within the school there are a variety of height tables/ chairs that can be used to enable children to work at the required height. The advice of the Occupational Health Service is sought when considering appropriate classroom furniture.

Staff training/Development

The training/development needs of staff are identified and provided for as part of the school's Staff Development Programme. In relation to those staff who work closely with pupils with disabilities, particularly Teaching Assistants, a range of training has been provided over the last few years, including, that in manual handling and First Aid.

In addition, the school works closely with and utilises the specialist services and expertise of external agencies within the LA, to help to ensure that disabled pupils are able to access the curriculum, e.g. Visual/Hearing Impairment, Language/Speech Therapy etc.
